

Don Giovanni, a constant among Prague hotels for 26 years, got a new look

Czech Inn's "Hotel of the Year 2018" in the category "Large hotels" got a makeover. Previously dark lobby is now a light toned marble marvel.

From the moment you walk in you can feel the atmosphere. Everything makes sense, the room flows, simply yet intriguingly, just like Mozart's composition. It all starts lightly with a beautiful Front Desk, crescendos at the statue of Mozart – a real centerpiece of the entire hotel and finally the Amadeus Bar, the grand finale for most of us.

As a part of the renovation a number of new facilities were added. Currently Don Giovanni consists of 412 bedrooms, 22 conference rooms, 2 restaurants, lobby bar, Executive Lounge, Games Room, Fitness room and SPA.

Even though we support modernization we appreciate the timeless structural elements of the building. The acoustic whisper points on the 1st floor are a brilliant architectonic structure which carry your whispers across the entire staircase. "It's a great part of our lobby, it brings everything together. It's smart, it's fun, it's innovative. Just like Mozart."
